

# Technical Data Sheet Isopropanol

400ml, Item 704.400

## Product Description

**ISOPROPANOL** is a mild, universally applicable cleaner for the safe removal of dirt and grease residues.

**ISOPROPANOL** reliably and effectively removes oils, greases, and layers of dirt.

## Areas of Application

Safe, gentle, and effective cleaning of all types of surfaces.

Particularly suitable for electronic and mechanical components, equipment, devices, precision instruments, and sensitive optical devices, as well as for cleaning and maintaining audio and hi-fi equipment and CDs.

Also effective in removing solder and flux residues, solder pastes, and for cleaning screen printing stencils.

## Advantages

Thanks to its ambivalent nature, it removes both fats and oils as well as ionic contaminants. It does not attack commonly used materials and evaporates completely after a short time without leaving any residue.

## Storage / Shelf Life

When stored properly, the product has a shelf life of 2 years.

## Technical Data

|                         |                                      |
|-------------------------|--------------------------------------|
| Description:            | Tinplate can with spray head and cap |
| Color:                  | Colorless, clear                     |
| Odor:                   | Alcohol-like odor                    |
| Density:                | 0.78 g/cm <sup>3</sup>               |
| Evaporation:            | Fast, complete evaporation           |
| Residue:                | No residue                           |
| Material compatibility: | Excellent compatibility              |
| Purity:                 | 99.9% purity                         |
